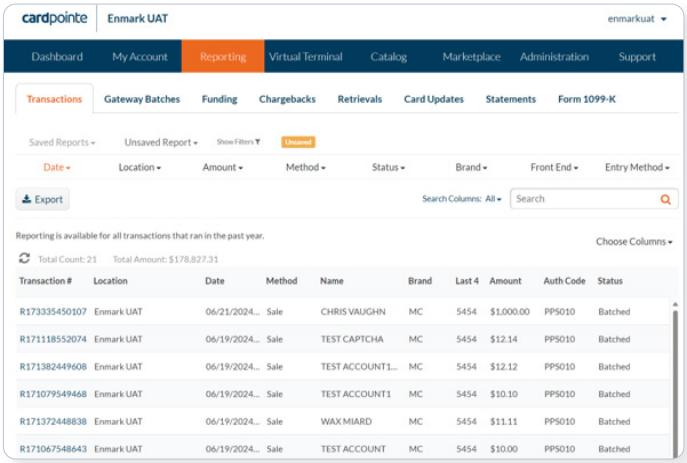
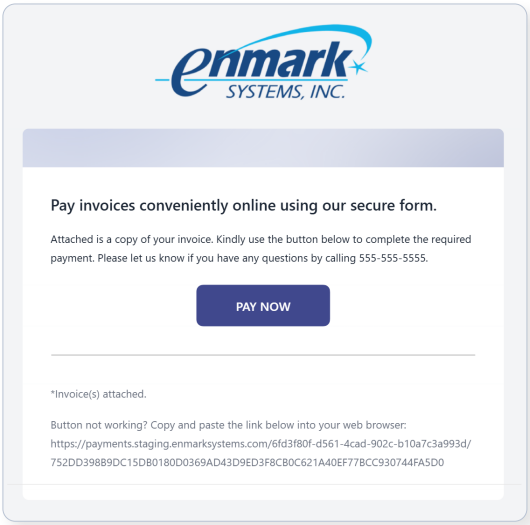
Enmark Pay

Online payment platform built for Eniteo users and their customers. Provide your customers with a simple, secure method of paying invoices online by credit card or ACH, as well as in-person terminal and over the phone credit card payments–all integrated with Eniteo!



- Invoices created with online payment links with option for credit card and ACH
- In-person and over the phone payments with credit card terminals
- Fully integrated with Eniteo accounting with automated cash receipts
- Customers able to view and select from all open invoices for payment
- Request and receive pre-payments for orders
- Real-time payment notifications to both customers and internal staff
- Review transactions, declines, and statements in CardPointe, Fiserv's online portal
- Safer, more reliable payments



Why use Enmark Pay?

- Customers have a more convenient payment method that yields quicker and more accurate invoice payments.
- Your team no longer needs to manually apply payments to invoices, reducing human error.
- Payments are more secure and backed by payment processor, Fiserv, a leading global financial technology company.
- Receive your funds faster and directly to your bank account.
- Payments are reflected in Eniteo within seconds.
